

Re: Petition of Consumer Bankers Association to the FCC to overrule Indiana's Do Not Call List. Indiana's Do Not Call rules are sufficiently restrictive to address a very real issue of privacy and unwarranted residential calls by telephone solicitors. We asked for it to be that way.

This is NOT an interstate commerce issue, but a very local commerce issue - our local residences - no matter where the origin of the call.

Please leave the Indiana Do Not Call rules alone.
Allow states some rights and protect consumer privacy rights.

Thank you.
